Other useful comments:

- A B1 Spanish level is highly recommended. No certification is required.
- We kindly ask our partners to **respect the bilateral agreement** signed between our institutions, regarding not only the number of students exchanged but also the **length of the stay**.
- **All our subjects consist of both, a theoretical and a practical part. To do only the practical part of one subject will not be possible.**
- **Students have to select the whole subject** on their Learning Agreement. They also will have to do the exam of the whole subject. **It will not be possible to evaluate only some part(s) of the subject.**
- It is **compulsory to participate in the exam** of each subject included in the Learning Agreement.
- Given that our subjects are evaluated with a single final mark (which takes into account student achievements in theoretical and practical competences) (see “*guía docente*”), **clinical practice certificates (or any other kind of certification apart from the final subject mark) will not be delivered.**
